Plastic in the News

[Sign our Pledge and make a difference by cutting plastic bags out of your life](#)

BYOB - in other words Bring Your Own Bag with you the grocery store, farmers market, and retail stores.

Not only will you be reducing the amount of plastic you are consuming but you will be showing fellow shoppers, and store owners how easy it is to stop using plastic.

Pay attention to all the other plastic that you are consuming in the form of beverage bottles, food wrapping, product containers, and toys.

Take it to the next level:

1. Bring your own mug to the coffee shop.
2. Use a reusable water bottle.
3. Buy beverages in glass and products packaged in cardboard or some other renewable resource.

Our planet is choking on plastic, but you can make a difference. Sign our Pledge to be Plastic Bag Free and you will be leading the way...
